MODELING INTEGRATED POWER MARKETS

BUILDING PRACTICAL SKILLS FOR CONNECTING POWER SYSTEM MODELING WITH MARKET PERSPECTIVES

JOHANNESBURG, SOUTH AFRICA 26–30 MAY 2025

Application deadline – 18th April 2025

Apply now

Women are
encouraged
to apply.

GAINING THROUGH TRAINING

This five-day integrated program introduces the fundamental connections between power market frameworks and practical modeling approaches. Using the PyPSA platform to build models through guided exercises, participants will explore how technical constraints impact market outcomes and how market designs influence system operation.
