

RESETTLEMENT

Module II

Asia Regional Training

18th to 22th October 2022

Bangkok

Module I will be Available in person –17 th October

Background

Resettlement impacts constitute the most significant social risk in the implementation of hydropower schemes. Module 2 is a 4-day in-person training which will be a highly interactive, deep dive into the process of resettlement, specifically designed for practitioners.

The training will be held in Bangkok to maximize accessibility for practitioners from the Asia region and will be pivoted to the context with case studies and experts from the region. There will be the opportunity for participants to bring their own experiences and concerns and participate in exchange of experiences and lessons learned.

Tools for the planning and implementation of resettlement programs that contribute to the fulfilment of social obligations, commitments, and long-term development goals will be included along with the chance to practice their use in real world examples.

Objective

- Develop deep understanding of the risks and fundamentals of the resettlement process based on real-world examples.
- Work through interactive case studies that illustrate the process of resettlement in a framework of international standards and best practice.
- Increased confidence with data collection and analysis for resettlement.

Cluster Affiliation: **Environment & social issues**
and human rights

Target group

This course is aimed at staff engaged in the social sector. This includes those who are responsible for the formulation and implementation of resettlement programs of the governing entities, regulatory authorities, local governments, developers, and consulting companies engaged in the hydropower sector.

Course requirements

- Participants will be expected to have completed Module 1 virtual training as a cornerstone of the resettlement training programme and priority will be given to those participants that have already completed this course.
- A one day in-person Module 1 course will be available for those that have not attended to ensure a common understanding of terminology, concepts and processes. This will run on the 17th of October.

Course Topics

Module 2

- Resettlement – process and policy
- Collecting data – Detailed Measurement Surveys (DMS) and Socio-economic Surveys of Affected Households (SESAH)

Course specifications

All lecturers and resource persons are well-known specialists within their field, and they have extensive international and regional experience. Attending the courses is an opportunity to discuss and learn about current issues related to hydropower and other renewables together with professionals from the continent and abroad. Participants are encouraged to bring along information that can be shared about pending energy and power market issues of your interest.

ADMISSION REQUIREMENTS

A minimum of about 5 years of working experience is required.

Applicants should hold an applicable degree or possess relevant background knowledge.

Proficiency in English is compulsory for this course Notice of admission will be given shortly after the application closing date.

ICH reserves the right to accept or reject any applicant based on their qualifications and experience.

SPECIFICS FOR THE COURSE

Women are encouraged to apply. Information on travel, detailed course programme and other relevant information will be sent to all participants in due course. Participants are expected to arrive at the venue of the course the day prior to the course start and leave no earlier than the day after end of the course.

COURSE FEE

The course fee * includes lectures, materials, accommodation, and meals. International travel expenses are not included. There is a reduced fee for ICH members.

A limited number of sponsored seats are available for participants from countries prioritized by NORAD (Norwegian Agency for Development Cooperation). Those who would like a guaranteed seat on the course should secure their own funding.

***Accommodation will be provided for participants attending from outside the host country and paying USD\$ 1000. Attendance without accommodation is USD\$ 500.**
